

Step 3:

Check that all sites are correctly named, and that they belong to the correct location.

Fill in the additional columns with controlled vocabularies (see Help button for details)

note: Changes to site_class, site_lithology, or site_type will overwrite er_samples.txt

However, you will be able to edit sample_class, sample_lithology, and sample_type in step 4

	sites		locations	site_class	site_lithology	site_type	site_definition	site_lon	site_lat	er_scientist_mail_names	site_core_depth
1	is031	belongs to	Mexico	Extrusive		Baked Clay	s				
2	is032	belongs to	Mexico	Extrusive		Baked Clay	s				
3	is033	belongs to	Mexico	Extrusive		Baked Clay	s				
4	sc12	belongs to	Xanadu	Extrusive		Baked Mud	s
