

Step 3:

Check that all sites are correctly named, and that they belong to the correct location.

Fill in the additional columns with controlled vocabularies (see Help button for details)

note: Changes to site_class, site_lithology, or site_type will overwrite er_samples.txt

However, you will be able to edit sample_class, sample_lithology, and sample_type in step 4

		locations	site_class	site_lithology	site_type	site_lon	site_lat
1	belongs to	Snake River	Extrusive:Igneous	Basaltic Lava	Lava Flow	5.60200	42.60264
